"Our partners are critical to the success of IBM's Information On Demand strategy and we are delighted to recognize this group of leaders with the 2008 Information Management Business Partner Awards," said Neil Isford, vice president, Worldwide Information Management Sales, IBM. "We look forward to continuing our collaboration with all of our partners, because their solutions and deep expertise provide superior business value to our joint clients."

This program recognizes IBM Information Management business partners who demonstrate excellence in delivering exceptional business value for information management and providing differentiated solutions based on the IBM Information Management software portfolio.

Winners and finalists were selected from among those Business Partners who have dedicated their time and energy to providing innovative solutions using IBM Information Management software.
